Why game based training works

- In a meta analysis of 65 studies, simulation game trainees scored 14% higher on skill knowledge and retained 9% more (Sitzmann, 2011).
- Learners in passive lectures were 1.5x more likely to fail than in active learning (Freeman et al., PNAS, 2014).
- Only about 23% of employees worldwide are engaged at work (Gallup, 2024).

Skills your team builds

- Decision making, strategy and smart risk taking
- Leadership, ownership and accountability
- Teamwork across departments, communication and trust
- Quick thinking, confidence and a growth mindset

Formats

- In person at your office, hotel or resort, anywhere in India (based in Jaipur)
- Online live on Zoom, Teams or Meet, with phones as controllers
- English and Hindi, for 10 to 200+ participants

Trusted by

Apple, MSD, LIC, Kerakoll, Accenture, John Deere, GAIL and 200+ organisations.
