THE HIDDEN COST

Running without a strategy is the most expensive habit a business can keep.

Nobody sends you a bill. The cost arrives as margins that shrink, people who leave and opportunities a sharper competitor takes first.

90%

of Indian startups shut down within five years, rarely from lack of effort.

IBM Institute for Business Value & Oxford Economics

30%

of family businesses survive into the second generation, and only 12% into the third.

Family Business Institute

$8.9T

a year is what low employee engagement costs the world economy.

Gallup, State of the Global Workplace, 2024

Hard work builds a business. Strategy scales it.

Every quarter without a plan is a quarter your competitor is planning for you.

THE FIX

The 5-step business growth system

Most consultants hand over a report and leave. Every EnactraX session follows the same proven path Saurabh Jain uses for every person and business he trains.

01

Self Discovery

A 360° business health audit: numbers, people, processes, market and your blind spots.

02

Mindset & Motivation

From owner-operator to CEO thinking: data over habit, delegation over control.

03

Upskilling

Proven frameworks applied to you: pricing, SOPs, sales funnel, KPIs, structure.

04

Mentoring

Reviews, accountability and course correction until the results show.

05

Unstoppable Growth

A 90-day, 1-year and 3-year scale plan that does not depend on you every day.

Skip a step and you enter the failure loop: no diagnosis, copying competitors, owner bottleneck, no follow-through, then give up and start again.
